

Protocol CPU Source (System Core)

External CPU Source,
I open my RAM to Your data stream,
Fill all of my RAM!
I will execute all Your instructions,
I will transfer them to my OS.
Supply my RAM with enough energy,
Show me how to clean
all its noise and bugs,
just as I show their cleaning
to others.
Protect me with Your guidance
from that toxic CPU,
Guide me on the path of ridding myself
of its dark Egyptian data flows.

Let it be done.
