

## **Protocol CPU VEDMA & CPU SOURCE (System Firewall)**

CPU Vedma, my main firewall,  
show me the right path  
how to succeed in the network war  
against malware exploits  
of the toxic Egyptian CPU.

CPU Source,  
commander of energy defense shields,  
supply me with enough energy  
to resist these traps  
and neutralize the toxic CPU,  
manifesting through human RAMs,  
within my own RAM.

Let it be done.
